

## Clearwire Corporation Case Study Questionnaire for Mobile World Congress 2009

\* **Operator name and brief introduction**

Clearwire Corporation (NASDAQ:CLWR) offers a robust suite of advanced high-speed Internet services to consumers and businesses. The company is building the first, 4G mobile Internet wireless network, bringing together an unprecedented combination of speed and mobility. Clearwire's open all-IP network, combined with significant spectrum holdings, provides unmatched network capacity to deliver next-generation broadband access. Strategic investors include Intel Capital, Comcast, Sprint, Google, Time Warner Cable, and Bright House Networks. Clearwire currently provides mobile WiMAX-based service, to be branded Clear(TM), in Baltimore, Md., and Portland, Ore., and provides pre-WiMAX communications services in 50 markets across the U.S. and Europe. Headquartered in Kirkland, Wash., additional information about Clearwire is available at [www.clearwire.com](http://www.clearwire.com).

\* **WiMAX network spectrum band**

2.5 GHz in the United States  
3.5 GHz in Europe

\* **Network deployment status (e.g. trial, commercial)**

Commercial.

\* **Major service offering from the operator**

On January 6, 2009, Clearwire introduced Clear™, the company's 4G WiMAX wireless broadband services. With Clear, consumers and businesses can access the Internet wirelessly, at true broadband speeds whether at home or on the go.
