WiMAX Forum® Quick Facts

Year Established: 2001

Website: www.wimaxforum.org

Social Media Website: www.wimaxtimes.com

Vision: WiMAX empowers mobile broadband everywhere.

Mission: The WiMAX Forum is a worldwide consortium chartered to deliver certification that achieves global interoperability, develop technical specifications based on open standards, pursue a favorable regulatory environment, and market and promote the vision.

Members: The WiMAX Forum's membership base represents a thriving WiMAX Ecosystem which includes leading equipment manufacturers, service providers and systems integrators. A complete list of members is available online at <http://www.wimaxforum.org/about/>.

Officers and Board of Directors: The Board of the WiMAX Forum is comprised of industry leaders within the broadband wireless ecosystem. Board members are committed to provide guidance and direction to the industry body to ensure the WiMAX Forum organizational staff executes on its vision and charter.

President and Chair: Ron Resnick, Intel
Vice President: Dr. Mohammad Shakouri, Alvarion
Secretary: Bruce Holloway, WiMAX Forum

Board of Directors:
Sean Cai, ZTE
Dr. Hyun-Pyo Kim, KT
Michael Lai, Packet One Networks
Thomas Lee (Li Li), Huawei Technologies
Bao-Shuh Paul Lin, ITRI
Scott F. Migaldi, Motorola
Dr. Hideo Okinaka, KDDI
Matthew Oommen, Sprint Nextel
Joonho Park, Ph.D., Samsung
Prateek Pashine, Tata Communications
Michel Peruyero, Alcatel-Lucent
Paul Senior, Airspan Networks
Sai Subramanian, Cisco Systems
Dennis Sverdlov, Yota
Ali Tabassi, Clearwire Corporation
Jari Vainikka, Nokia
Dorin Viorel, Fujitsu
Dr. Fumio Watanabe, UQ Communications

Working Groups: The WiMAX Forum has organized the following working groups to address critical areas of focus in bringing WiMAX Forum Certified™ products to the marketplace:

- **Applications Working Group:** Define and facilitate favorable applications and services best practices for WiMAX systems with engineering focus & influence WiMAX technology adoption worldwide. *Chair, Erich Izdepski, Clearwire*
- **Certification Working Group:** Handles the operational aspects of the WiMAX Forum Certified program. *Chair: Ed Agis, Intel*
- **Global Roaming Working Group:** Assures the availability of global roaming service for WiMAX networks in a timely manner as demanded by the marketplace. *Chair: Sang Ho Ough, KT*
- **Marketing Working Group:** Drive worldwide adoption of WiMAX enabled wireless broadband connectivity anytime, anywhere. *Chair: XJ Wang, WiMAX Forum*
- **Network Working Group:** Creates higher level networking specifications for fixed, nomadic, portable and mobile WiMAX systems, beyond what is defined in the scope of 802.16. *Chair: Prakash Iyer, Intel*
- **Regulatory Working Group:** Influences worldwide regulatory agencies to promote WiMAX-friendly, globally harmonized spectrum allocations. *Chair: Tim Hewitt, WiMAX Forum*
- **Service Provider Working Group:** Gives service providers a platform for influencing BWA product and spectrum requirements to ensure that their individual market needs are fulfilled. *Chair: Asan Khan, Comcast*
- **Technical Working Group:** The main goal of the TWG is to develop technical product specifications and certification test suites for the air interface based on the OFDMA PHY, complementary to the IEEE 802.16 standards, primarily for the purpose of interoperability and certification of Mobile Stations, Subscriber Stations and Base Stations conforming to the IEEE 802.16 standards. *Chair: Wonil Roh, Samsung*

Regional Office Directors:

- **China:** Liu Dong
- **India:** Shyam Kaushal, Regional Director; CS Rao, Honorary Chairman
- **Indonesia:** Sylvia Sumarlin
- **Japan:** Professor Tadao Saito
- **Russia:** Sergey Portnoy
- **Southeast Asia:** Ferrie Hu Taijun and Lior Mishan
- **Taiwan:** Dr. Ching-Tarng Hsieh
