

Industry Research Report

February 2011

About

The WiMAX Forum® Industry Research Report is a monthly summary of primary and secondary research and news, provided by WiMAX Forum to the industry. It includes the latest updates on WiMAX Forum-tracked statistics, product certification, regulatory information, technology standards and more. This report will be published and made available on the WiMAX Forum website the first week of every month. If you have any questions or comments regarding the research contained herein, please contact Jonathan Singer, the WiMAX Forum's Marketing Communications and Research Manager at Jonathan.Singer@wimaxforum.org.

Executive Summary

- **WiMAX Forum currently tracks 582 WiMAX Deployments in 149 Countries.**
- **WiMAX Forum Press Release – WiMAX Forum Hosts First Global Operator Summit**

Global Deployment Update

This section describes the current state of WiMAX deployments across the world. The data for this tool is delivered to us courtesy of [Informa Telecoms & Media](#), and can be viewed online in more detail at www.wimaxmaps.org. Please note that the numbers below do not necessarily represent total WiMAX networks in existence, but rather the total deployments that we currently track. Every month we find more data on new or existing deployments and add them to the database. If you are an operator, please check WiMAX Maps to make sure that your organization's information is accurate. If it is either not there or is inaccurate, please email deploymentdata@wimaxforum.org, and we will update our information immediately.

Total Deployments*

*Note: "Deployments" in this case refers to WiMAX networks that are either in service or planned/in deployment (i.e. base stations are being deployed, but there are few/no subscribers yet).

Total Deployments Tracked	582
Total Deployments Tracked Last Month	592
Total Countries** with WiMAX Deployments	149
Last Month	149

**Note: "Countries" in this case is representative of distinct telecommunications markets, and therefore this number may equal more than the total number of sovereign nations recognized by the UN. For example, Hong Kong and China have different regulatory structures, and are therefore treated as different markets.

Deployments By Region

REGION	DEPLOYMENTS	COUNTRIES
CALA	119	33
Africa	117	43
Asia-Pacific	98	23
Eastern Europe	86	21
Western Europe	76	17
North America (USA/Canada)	57	2
Middle East	29	10

Deployments By Frequency

2.3 GHz Deployments***	47
2.5 GHz Deployments***	114
3.3 GHz Deployments***	9
3.5 GHz Deployments***	307
5+ GHz Deployments***	21

***Note: In above table total deployment by Frequency may not add up to total deployments tracked. The missing deployments' statuses are unknown, and will be confirmed and updated.

POPs Coverage

In February, 2010, WiMAX Forum announced that as of the end of 2009, WiMAX service providers cover more than **621 Million people**. This estimate shows that WiMAX is on track to reach last year's EOY2010 forecast of 800M+ people. WiMAX Forum now forecasts that by 2011 there will be over 1 Billion people across the world within WiMAX coverage. This POPs update is a yearly project, and will be updated again at the beginning of 2011. Below is a regional breakout of the estimate:

Region	POPs Covered
Africa	81,347,832
Asia-Pacific	237,148,673
CALA	113,246,829
Eastern Europe	82,887,886
Middle East	27,390,827
North America	47,000,000
Western Europe	32,549,629
TOTAL	621,571,679

**These numbers represent an estimate conducted by WiMAX Forum via primary and secondary research of operator POPs coverage on an operator-by-operator basis. Where the operator could not or would not respond to direct inquiry, estimates were made based on public operator statements, number of base stations, government-mandated buildout requirements, and other available information. Proprietary networks (pre-WiMAX/non-WiMAX) were not included, and geographic overlap of operator coverage areas was taken into account.*

WiMAX Forum News Clips

Below is a summary of important industry news:

- **Sprint Becomes First National Wireless Carrier in U.S. to Offer International 4G Roaming – WCAInternational, January 31, 2011**
- **Smart poised to launch WiMAX – TeleGeography, January 28, 2011**
- **4G Wireless Evolution - Sprint Technology: The First True 4G – TMCnet, January 28, 2011**
- **Foxconn, Cheng Uei Poised to Explore WiMAX Phone Market – CENS.com, January 21, 2011**
- **4G Wireless Evolution - Roaming Agreements Drafted at WiMAX Forum Global Operator Summit – TMCnet, January 17, 2011**
- **India big market for Broadband: WiMax – Economic Times, January 17, 2011**
- **WiMAX™ Operators Gather to Draft Global Roaming Agreements – January 13, 2011**
- **SLT's Skymax finally launches – TeleGeography, January 12, 2011**
- **WiMAX2 to be commercialized this year – ReThink Wireless, January 11, 2011**
